

# SAT Suite of Assessments: Helps Students Navigate Their Path

The fully digital SAT® Suite of Assessments provides in-depth insights to track and guide student progress throughout high school. Scored on a common scale, the tests measure the core reading, writing, math, and science skills needed for any postsecondary pathway.

The assessments are delivered on Bluebook™, College Board's custom-built digital testing platform for the SAT Suite of Assessments and Advanced Placement exams. More than 10 million tests have been taken on Bluebook, which provides stability, flexibility, and accessibility.

**"We want to address all needs of students and identify ways for all of our students to be successful. By using the SAT Suite of Assessments, we're able to adapt instructional supports and use disaggregated data to determine if there are gaps in learning across the different student demographics."**

Hope Keane, Director of Assessment and Accountability, Carrollton-Farmers Branch ISD, Texas

## BENEFITS FOR STUDENTS

### Before the Test

- Free practice tools, including full-length practice tests, student question bank, and exclusive Khan Academy® courses

### During the Test

- Full range of universal testing tools, including a built-in calculator, and accommodations on Bluebook (93% of students rated Bluebook easy to use)
- More time per question than other similar assessments

### After the Test

- Relevant score reports, typically delivered within two weeks of testing, that include academic progress, along with skills-based career insights
- Easily accessible scores, customized college and career planning guidance, and the opportunity to connect with nonprofit colleges and scholarships on the BigFuture® School mobile app—without sharing personal information
- Students can choose whether—and when—to send their scores for college admission and scholarships

## BENEFITS FOR EDUCATORS

- Flexible scheduling windows
- 2-hour tests allow for more instructional time
- Extensive implementation resources

- College Board's Test Day Toolkit (TDTK), which makes administration tasks easier. (92% of coordinators indicated excellent or good experience with TDTK)
- Bluebook testing platform that can withstand intermittent connectivity issues, reducing disruptions

- Actionable data delivered within 2 weeks of testing
- Access to AP Potential™, an online tool that uses data from the SAT Suite to help identify 9-11th grade students who are ready for AP courses
- Free instructional planning resources including the Educator Question Bank, Skills Insight, and Question of the Day
